

IDTC AGILITY LEAGUE 2019

Week 6 – Silent Agility

Silent Agility is run on a standard course with the handler remaining silent through out the run. No verbal commands maybe given except a command releasing the dog at the start line or from a contact. Clapping, stomping and patting your leg will be allowed.

Scoring

Scoring is on a time plus faults basis. In addition to the usual faults in standard agility the handler will be assessed 5 faults for each verbal outburst made on the course. Each dog/handler team start with 200 points, their course time and total faults are then subtracted for a final score.
